

Brains and Behaviour

Thurs 7 Nov 2019 , 7.30-9.00pm

Nundah State School - Brisbane

Nundah State School is proud to announce that the host of the documentary "All in the Mind", and co-host of the TV Series "The Secret life of Girls", Nathan Wallis, Aotearoa's renowned neuroscience educator, is coming to our community with his talk - Brains and Behaviour.

The last twenty years has seen an explosion of information about the brain and how it develops. We know so much more than our parents about how our brains operates. This information also informs us about behaviour management. Using the latest neuroscience findings, Nathan will shed light on simple effective ways to help your child to be co-operative and on the same team as the parents.

While Nathan has all the qualifications and academic creed, he comes from a background of being a foster child, father of three, grandfather of two and foster parent to many. He uses his trademark humour and unique "tell you how it is" style to keep you captivated, and you will walk away jam-packed with "ah-ha" moments.

Tickets are available at www.eventfinda.com.au
