

SAMANTHA KENNEDY

What do you teach at Corinda State High School?

I teach Year 7 to 9 Maths, 11 Methods and 11 Chemistry.

Why did you decide to become a teacher?

I didn't have a great experience in high school so I wanted to be the change for my students. Making sure students feel heard, valued and appreciated is my top priority.

In three words, describe your teaching style?

Creative, curiosity, calm.

What has impressed you most about Corinda?

The staff have been nothing short of amazing and the school culture has blown me away with the open-mindedness. It allows students to be who they are without judgement, which is why we do what we do. As teachers, we teach content but we also teach self-acceptance and self-advocacy.
